

How sharing your healthcare experiences can help everyone

Slide: 1 Transcript:

[The screen shows people with different health and social care needs from across the community; an elderly person with a walking frame, a young person on crutches, a visually impaired person and someone in a wheelchair.]

By sharing your story, you can make a difference in your community and inspire change.

Slide: 2 Transcript:

[The screen shows a book opening and its pages turn to show people in different health and social care settings.]

Whether it's a GP visit, a dental checkup, hospital appointment, or an experience of a care home, your feedback highlights what is working and what needs to improve.

We want to hear your story.

Slide: 3 Transcript:

[A map of the United Kingdom is shown, with markers indicating that there are Healthwatch all over England.]

With a local Healthwatch in every part of England, we are here to listen to what matters to you.

Share your experiences with us and help to improve health and social care for everyone.
